

ASBURY PARK

Plan for Walking and Biking

Study Background

The *Plan for Walking and Biking* will guide the City in its efforts to **create safe, comfortable, and attractive options for travel** by bicycle and on foot throughout the community. It seeks to identify existing issues and deficiencies, develop comprehensive improvement strategies, and conveniently connect residents and visitors to destinations within Asbury Park, as well as linkages to adjacent communities. The Plan will provide a blueprint for bicycle and pedestrian improvements that will help the City make its streets more accommodating for users of all modes, ages, and abilities.

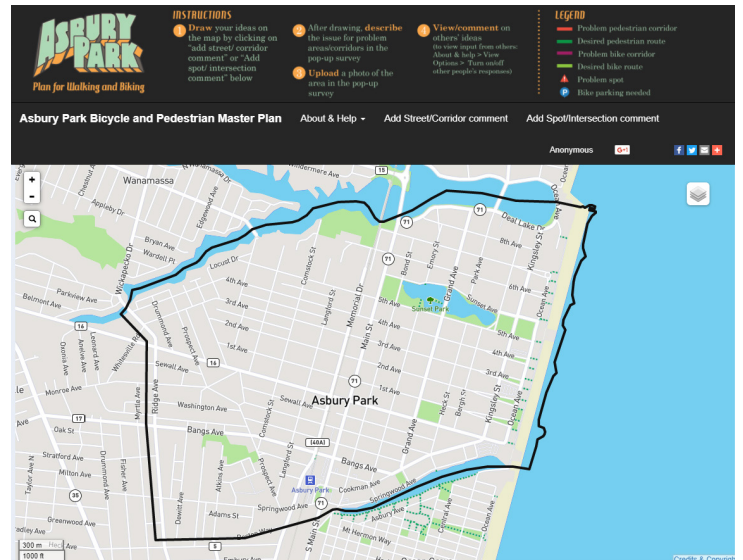

Provide Your Input!

Visit: <http://tinyurl.com/APBikePedPlan>

Community input and support are critical to create a successful plan and a more walkable and bikeable Asbury Park. An interactive online map is available to allow members of the community to provide input and comments at any time.

Help us identify:

- » Corridors and/or spots in need of improvement
- » Desired pedestrian corridors
- » Desired bike routes and bike parking
- » Upload photos and provide other comments

More Information
