

Frequently Asked Questions Concerning the 2022 Property Reassessment and Impact on Property Taxes

1. If my assessment goes up, does that mean I will pay even MORE taxes?

Not necessarily. The assessment function does not *create* revenue for the municipality. The assessment function is only a distribution mechanism for the separately determined tax levy. In strict adherence with the NJ Constitution, this apportionment is to be based on the value of property.

2. My assessment DOES reflect the fair market value, but my taxes went up this year. Why?

Please remember that the assessment function is focused on the **uniformity and accuracy of the assessments** and NOT the resulting tax responsibility. When the assessments are set to the same standard (market value) in a uniform way, the tax levy will be distributed fairly citywide and countywide in accordance with the NJ Constitution.

The Tax Assessor does not have control of the tax levy. County, municipal and school budget costs determine the amount of property tax to be collected. A municipality's general tax rate is calculated by dividing the total dollar amount it needs to meet local budget expenses by the net valuation of all its taxable property (total of all assessments). An individual's property taxes are directly correlated to that property's proportionate share ownership of the municipality. To put it simply, if a property is worth 5% of the municipality, it would be assigned to pay 5% of the tax levy.

The State of New Jersey recently signed a law, commonly known as S2, which reduces the amount of State Aid the School Board receives. As the School District loses State Aid, the created shortfall becomes fiscally budgeted. The 2021 District School budget increased by \$1,991,693.00.

Below is the breakdown of the recent Certified Tax Levies in Asbury Park:

Tax Levy Component	2017 Tax Levy	2018 Tax Levy	2019 Tax Levy	2020 Tax Levy	2021 Tax Levy	20-21 Diff	20-21 % Diff
County Budget	\$3,706,498.22	\$3,974,852.08	\$4,276,528.01	\$4,521,023.05	\$4,749,206.69	\$228,183.64	5.05%
District School Budget	\$7,103,291.00	\$7,271,544.00	\$8,094,166.00	\$9,590,558.00	\$11,582,251.00	\$1,991,693.00	20.77%
Municipal Budget	\$16,882,742.40	\$16,882,742.00	\$16,949,253.01	\$16,291,732.04	\$15,848,281.69	-\$443,450.35	-2.72%
Library Budget	\$470,206.34	\$521,892.00	\$581,641.69	\$627,314.18	\$677,614.00	\$50,299.82	8.02%
County Health Budget	\$74,775.91	\$78,867.14	\$86,123.22	\$93,243.15	\$97,233.51	\$3,990.36	4.28%
County Open Space Fund	\$217,728.34	\$440,750.19	\$493,517.36	\$527,859.63	\$570,847.10	\$42,987.47	8.14%
Total Tax Levy	\$28,455,242.21	\$29,170,647.41	\$30,481,229.29	\$31,651,730.05	\$33,525,433.99	\$1,873,703.94	5.92%

3. How is the Tax Rate Calculated?

The tax rate is calculated by dividing the total tax levy by the net valuation of the City's taxable property. Each property then pays taxes equal to the subsequent rate multiplied by their assessment. Accurate market-based assessments ensure a fairer distribution of the tax levy.

Year	Total Tax Levy (Yield From)	Net Value of City	Tax Rate
2014	\$25,674,003	\$1,184,771,700	2.167%
2015	\$26,942,246	\$1,216,903,600	2.214%
2016	\$27,692,356	\$1,291,621,100	2.144%
2017	\$28,465,855	\$1,368,550,700	2.080%
2018	\$29,185,387	\$1,637,788,300	1.782%
2019	\$30,499,355	\$1,848,445,800	1.650%
2020	\$31,661,910	\$2,010,280,000	1.575%
2021	\$33,543,746	\$2,123,021,910	1.580%

4. Why are my 3rd and 4th quarter bills different from my 1st and 2nd?

Because the tax rate is not certified by the State of NJ until mid-year, the first and second quarter bills are always estimated bills based off of what was billed in the prior year. The 3rd and 4th quarter bills reflect the final adjusted tax bill.

As an example, if your property taxes changed from \$8,000 to \$8,500. The quarterly breakdown would be as follows:
 1st quarter: \$2,000 2nd quarter: \$2,000 3rd quarter: \$2,250 4th quarter: \$2,250

5. My house was recently inspected by the Tax Assessor's Office. What was the purpose of that inspection?

In order to annually reassess, the Division of Taxation requires that an inspection is done once every five to eight years on every property. The purpose of the inspection is to gather data on each property in the City so that the appraisal process (and resulting tax distribution) is fair and uniform. Please note: The inspectors are not appraisers and are not appraising your home. The inspectors are simply collecting data and return it to this office where the reassessment process is done.

6. What if the inspector didn't gain access to the interior of my house during that inspection?

If the inspector does not gain access to the interior of your property, they will estimate the interior room counts and conditions. For residential property owners, you can contact the Assessor's Office and request a copy of your Property Record Card (PRC) to be sure that all of the physical characteristics listed on the record are accurate. If you find any issues on the PRC, you should consult with the Assessor's Office immediately to determine what remedies are available. If you own a condo, you can contact the assessor and ask for the sales and assessments in your condo association. Always remember to make sure the inspector has proper identification before allowing them in your house. If there is any question, do not hesitate to call the Assessor's Office to verify.

7. How is the appraisal process done?

After all inspection data is returned to this office, the assessor reviews all recent sales data and synchronizes the mass appraisal modeling in each market and submarket to target current market value. When the assessments are set to the same standard (market value) in a uniform way, the tax levy will be distributed fairly. Remember, the assessment function is focused on the **uniformity and accuracy of the assessments** and NOT the resulting tax responsibility.

8. What do I do if I feel my 2022 assessment DOES NOT reflect the fair market value?

Please be on the lookout for the postcard with your 2022 assessment which will be mailed in late November of 2021. If you believe the 2022 assessed value does not reflect the fair market value of your property, you should contact the Assessor's Office immediately to confirm that the physical characteristics on your Property Record Card (PRC) are accurate. After speaking to the assessor, if you still feel the assessment does not equal the fair market value of the property, you should file an appeal with the Monmouth County Tax Board before **January 15th, 2022**. Here is a link to the appeal site: <https://secure.njappealonline.com/prodappeals/login.aspx>

Please note that the site will not be available until the 2022 assessment postcards are sent out. If you miss the January 15th deadline, you will not be able to file an appeal with the County until the following year.

If you choose to file an appeal on your assessment, you will be required to provide evidence to demonstrate your position. "Evidence" is typically recent sales of comparable properties. You can research sales data at the Monmouth County Open Public Records site- <http://oprs.co.monmouth.nj.us/Oprs/External.aspx?iId=12> (Select "Deed/Sr1a List" under step 1 then you can modify your search according to the other fields.)

9. Why are we annually reassessing and how was it done in the past?

Monmouth County is engaged in the *Assessment Demonstration Program* (ADP). The overarching intent of the *Assessment Demonstration Program* (ADP) is to institute a revised assessment function that provides systemic cost savings and better public service. At the core of the program is the ability to establish and annually maintain individual property assessments at 100% of current market value. This is accomplished by the County and the towns working collaboratively to employ enhanced education, advanced appraisal techniques and modern technology. The fundamental goal of the ADP is to ensure that each taxpayer pays their fair share of the annual tax levy (no more or no less).

Created in Monmouth County, the ADP is an international award-winning program that has been recognized as a model assessment paradigm by Moody's Investor Service and Harvard Kennedy School. The ADP won the industry's top respected *Distinguished Assessment Jurisdiction Award* for 2019 from the *International Association of Assessing Officers (IAAO)*. The IAAO presents the *Distinguished Assessment Jurisdiction Award* to a national, state, regional or local agency that has instituted a technical, procedural or administrative program that improves on prior programs, and is recognized as a component of a model assessment system and a contributing factor to equity in property taxation. This prestigious award has been given to the most deserving district in the *world* annually since 1983 and past award winners span the globe from Ontario, Canada to Reykjavik, Iceland.

In the past (and currently outside of Monmouth and Somerset Counties), the assessment function may not have been as uniform and accurate as what current technology allows for. Due to technological and administrative constraints, assessments were set during a revaluation year and remained static despite obvious changes in the markets and sub markets. Annually, "assessment to sale price ratios" were studied to establish a "common level of assessment" ratio. One of the many problems with the antiquated traditional assessment system is that it was based off an assumption that every property within a municipal boundary appreciates / depreciates at the same rate. This is not true. Every neighborhood and property class react differently to the market environment.

It is necessary to study each of the markets and submarkets individually (annually) to be sure the total tax levy is distributed in accordance with recent and reliable market data. The only appropriate fix for this is to conduct reassessments annually. The old assessment model enabled an environment where assessments were often significantly removed from the current market value of properties. That environment allows for taxes to be inappropriately distributed. Monmouth County has reformed the distribution component of property taxation to address this shortcoming. Every property owner should be entitled to fair and accurate tax levy distribution.

Please contact the City of Asbury Park Tax Assessor for questions or additional information.
