

Adding/Editing a Vehicle on an Existing Permit

The City of Asbury Park permit parking online portal can be found at:
<http://www.asburypark.cmrpay.com>

Rules Regarding Permit Vehicles

All vehicles registered to any parking permit must be registered to one of the applicants of the permit.

A maximum of three (3) vehicles may be added to any one permit.

A valid vehicle registration for each vehicle must be provided to the Parking Utility office (parking@cityofasburypark.com) for review. If an applicant is not listed as the owner of the vehicle, a current insurance declaration statement must be provided showing the applicant as an eligible driver for the vehicle.

How to Add a Vehicle to an Existing Permit

1. Login to the permit portal with your user name (email address) and password.
2. Click 'Manage' on the permit to edit.
3. Under 'Permit Holder and Vehicle Information', click 'Edit'. Here you can edit, add, or remove vehicle information, when finished select 'Save'.
4. Follow the prompts to add your change request to your shopping cart and check out. All changes are free but do require a credit card to process submit. You will not be charged.

5. Please Email parking@cityofasburypark.com and request that the specific vehicle be added to your active permit. Please attach the vehicle registration and insurance declaration statement (if necessary). Once the vehicle is added to the permit, the Parking Utility office will respond via email and you may park the new vehicle in the corresponding permit areas.
